Subject: Fine tune Dharfresh machine after new vacuum pump installation			

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 340 Dharfresh		Line 1

Equipment condition:

Good

Work Performed:

Daniel requested me onsite as they install a new vacuum pump.

Wait for the vacuum pump installation and work on the recipe for the new 100um film. I was in the process setting up the recipe when the power went out at 12h00. Currently, the film is breaking inside the dome which will lead to production have serious production issues.

I advised Daniel for me to be onsite Monday morning to finnish setting up the new recipe for the 100um film.
