Subject: Production needed a few issues sorted with the recipes on line 1

Trave 340		1

Equipment condition:

Excellent

Work Performed:

I was requested by Sean the be onsite addressing some issues production experience with the machines.

Production reported that the dinner tray when transferred, interfere with the tool causing a crash.

I adjusted the spacer belt angle to accommodate this scenario. As a result, I had to fine tune all the recipes as it affects the transfer onto the spacer belt. Tested the Dinner tool and lunch tool and production was happy with the result.
