Customer PO #:		**Internal Job #:**	4676

Subject: Test coated sealing bars on second tool

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 340 MAP tool	A20A12495	5

Equipment condition:

Used

Work Performed:

- Issues with trays stuck on newly coated sealing bars, as requested swapped newly coated dinner tool sealing bars from tool A20A12495 to the current tool inside line 5 and test with several empty trays. No sticking occurred as on the original tool thus confirming broken or weakened inner springs on the original tool. Parts to be ordered and the tool needs to be refurbished. Left the tool with coated sealing bars inside the machine for production on Monday and for thorough testing before we will also send out the second set of sealing bars for recoating.
