Subject: Line 7 support

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 1000	A22A-12886	Line 7

Equipment condition:

Good

Work Performed:

- Travel to site to assist with startup.
- On Arrival I checked that the film was transferring good to the top tool.
- Then trying to make some tests with empty trays, I found a massive vacuum leak.
- The same pipe of last time has split again because it has never been replaced with a new hose that is the correct length.
- After looking in the store for new hose, I could not find new grey hose.
- I had to take one of the hoses off of line 4 to make line 7 run in the meantime.
- Tested machine again.
- All vacuum values look good.
- Film transfer was good.
- Trays sealed good.
- Very seldom re seals needed due to trays being dirty and the film pulling off of the top tool some random times.
- Before leaving, I caught up with Michael.
- They said I might have to come in every time they do TE meals.
