GENERAL SERVICE REPORT

Customer:	Lite and Easy	**Date:**	06/05/2025
Site Address:	8-10 Naweena Road Regency Park	**Site Contact:**	Peter
		Phone:	0417782039
Customer PO #:		**Internal Job #:**	5405

Subject: Seeling issue with lunch tool

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 340		Line 1

Equipment condition:

Excellent Condition

Work Performed:

- Peter informed me that they are having random issues selling issue line 1 running lunch. He said the film looks like it is cut right next to sealing edge on the inside of tray. The will not happen every cycle but randomly witch sounds like pre-cutting. Arrange with Peter to come on site to have a look at the machine.
- Got on site and test ran some trays with tomato's. Saw the issue Peter was referring to.
- Inspected vacuum valves and tested operation.
- Inspected upper air valve and tested operation.
- Checked gas regulator and found it 0.3bar higher than my reference mark. Adjusted gas pressure back to my mark.
- Inspected balance valve and found it blocked. Cleaned valve out and reassemble.
- Test ran machine with trays filled with tomato's. Ran multiple trays varying between shallow and deep trays. Seeling looked great and did not have any failed trays.
- Also took the opportunity to swap out the foam pads as they could set sufficiently.

Blocked balance valve
