GENERAL SERVICE REPORT

Customer:	Hilton Bunbury	**Date:**	08/10/2024
Site Address:	Rawling Road, Bunbury	**Site Contact:**	Scott
		Phone:	
Customer PO #:		**Internal Job #:**	SR4897

Subject: Production Follow and tasks for October 2024

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590		All

Equipment condition:

Good

Arrived onsite and performed the following jobs:

Line 6: Update Mono Sausage recipe name to “MAP2517 BB2600”

Line 8: I noticed a gas blowing noise when the tool was cycling. I requested the tool boys to replace the O-ring cord on the bell housing of the top tool as a gap in the o-rings was visible.

All Tools: I noticed a lot of vacuum gauges broken on the tools. We need these gauges when we do fault finding on the tools. Therefore needs replacement.

Line 9: Update the recipe name of the Large Map tool to “Map Large BB2585”

Line 5: Fixed recipe Mono Sausage and change the recipe name to “T01-MAP Sausage BB2599”

Line 5: Commision Cryovac small tool on line 5 and changed the recipe name to “ Cryovac small BB2620” This tool is not fully commissioned as the crane was broken and I was waiting for product. It was already 17:15 in the afternoon. I processed empty trays with a good outcome. Therefore, production can run the recipe. I will do fine adjustments while the processing.
