Subject: *11x9 VSP support*

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590	A17A-11614	Line 4
Platformer	A17A-11614	Line 4

Equipment condition:

Work Performed:

Thursday 8th

- *Production support on the 11x9 tooling with XT500LC Platformer film and TH300T Trave 590 film.*
- *They were having a lot of reworks and needed the recipe fine tune for better results*
- *This was not easy because of the product placement so we could only work with forming cycle to make sure the TH300 film forms better (note TH300 is not a stable film which will affect performance).*
- *We manage to get a better cycle and consistency in the cycle.*
- *We cleaned up infeed of product for better consistency to prevent stoppages.*
- *The out feed was adjusted to prevent pusher arms from damaging trays.*
- *Replaced damaged sensor on the deviator.*
- *Watched production till the end to make sure all ran well.*
