Equipment condition:

Work Performed:

Thursday 10th

- *Called in to help with production on the 11x10 trays as they were having sealing problems.*
- *We found knifes don't fully punching through the trays.*
- *The lower tool was removed and all knifes were moved up by 2mm evenly across.*
- *Production started to run with a better result and good seal.*
- *The 11x9 recipe was adjusted as well by adjusting the tool axis height to make sure the punching knifes were not touching the top sealing bars.*
- *Watched production for a while which ran okay.*
- *The 9x8 lower tool punching knifes will also need looking at by increasing knife height.*
- *The recoated 9x8 sealbars were inspected and ready to be installed and tested*
