Subject: New film trial

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590	A17A-11614	Line 4
Platformer	A17A-11614	Line 4

Equipment condition:

Mondini machine and tools need service

Work Performed:

Called in to run some film trials in Trave 590 and Platformer

Trave 590
Found the sealing dome were loose on the large tool with inner plates coming off, we needed to remove the outer plate cover and tighten the inner spacer blocks on two of the domes

We ran the pre-made trays through the Trave 590, which did not seal well and found the trays are too small in the inner area that creates no support for the trays; the trays need to be the same in all areas as the original trays.

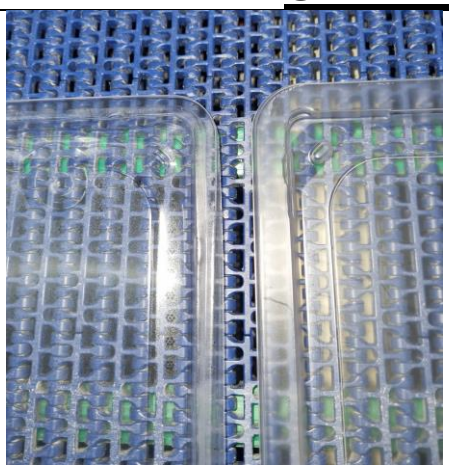
GENERAL SERVICE REPORT



Best is to copy the forming plates in the Platformer.

Platformer

We tried to run the new film in the platformer and found the film wound stick to the pre-heater plates, we tried to reduce the heat which helped a little but was not sustainable we only manage to make a few trays.
