Work Performed:

Arrived onsite and replaced the blue electrical connection hoses on both lunch tools.

20/05/2022 (Friday)

Visit site to address issues experiencing since the machinery were moved. Investigate and adjusted the chain line conveyor to achieve a better transfer onto the spacer belt. I re-adjust the spacer belt settings and after adjustment, a much better fluent operation was achieved. I updated the both lunch tool recipes.

Tested the machine and all is in good working order.

I recommend replacing the white insulation pads inside the seal bars on the lunch tool. Currently, you do not have any in stock.
