GENERAL SERVICE REPORT

Customer:	Coles ROAA	**Date:**	19th February
Site Address:	54 Templar Rd, Erskine Park NSW 2759	**Site Contact:**	Alan Villa
		Phone:	0410 556 153
Customer PO #:		**Internal Job #:**	4407

Subject: XT500 film trial Platformer 11x9

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590	A17A-11614	Line 4
Platformer	A17A-11614	Line 4

Equipment condition:

Work Performed:

Monday 19th

- *Called in because production had to start early on the changeover to XT500 bottom film for Platformer.*
- *We only had two 11x9 diffusers running on the Platformer and other two still waiting for parts*
- *Temperatures had to be lowered to 120C and P&P to 120C so we could run the new film.*
- *Spacer of the film sheets on distance belt needed to be changed for good forming of trays.*
- *The 11x9 trays started looking good and acceptable to run*
- *I was having problems with one Diffuser on the middle pocket not forming the trays correctly thinking a problem might be a cold spot.*
- *The XT500 ran the full day with no issue and forming well with the new recipe set-up.*
- *The Trave 590 I had to make adjustments to the recipe for the new film which ran well and production was happy with the end result.*

NOTE: the film is running better okay but if the operator adjust the PPM speed this will affect the trays because the time the film sits on the Diffuser is affected by the PPM and with this film it's very sensitive to heat,
