Equipment condition:

Work Performed:

Friday 20th

- *Called in to help with start up on the large DOT tooling*
- *We had problems with heater plate no 5 not heating*
- *We needed to replace the heater plate and fix some lose wiring on plate 6*
- *After replacing the heater plate we had problems with alignment of the lower plates*
- *Investigated and found the front cylinder was faulty which needed to be replaced.*
- *Once the front cylinder was replaced we manage to get the line to align correct and form well.*
- *Production was sent home so we were not able to run the line but we did a few cycle to confirm all was okay.*
