**Subject**: Line 17 Denester 1.8Kg magazine testing

| Equipment Type: | Serial Number: | Customer Line # (if applicable): |
|---|---|---|
| | | |
| Trave 590 | A18A-11946 | Line 17 |
| | | |
| | | |

**Equipment condition:**

**Work Performed:**

- Travel to site to check and test Line 17 large magazine. The 1.8Kg magazine.
- Spent some time to make a new 1.8Kg recipe on the second floor with the vertical denester unit. Tested without trays going down. Size looks good from the top.
- Went to the bottom to install the bigger magazine.
- Had to borrow the red safety magnet on the smaller magazine to ensure all safeties reset.
- Adjusted all length and width adjustments and started testing. Had to make a few adjustments in the top parts of the vertical denester because the trays got stuck halfway coming down..
- I then started testing the bottom unit, until I got only single trays denesting.
- After all this, I made some stickers to stick on the side of the denester as reference points.
- When the 1.8Kg trays was completed with its run, I cahnegd over the magazines again for the smaller tray.
- I had to make minor adjustments to make the smaller tray working good again.
