GENERAL SERVICE REPORT

Customer:	Coles ROAA	**Date:**	22/06/2022
Site Address:	54 Templar Rd, Erskine Park NSW 2759	**Site Contact:**	Rahul
		Phone:	0447 100 117
Customer PO #:		**Internal Job #:**	1349

Subject: New film trial

Equipment Type:	Serial Number:	Customer Line # (if applicable):

Equipment condition:

Mondini machine and tools need urgent service

Work Performed:

Called in because they are having problems with Trave and Platformer and my finding are the following

Platformer

1. They running the incorrect pre-heater (Defusser) plates for the tray size and I believe the correct plates were send away for repairs and Teflon coating, they very lucky to get the platformer running in this condition.
2. The film reel was completely off centre and they kept running and should have change the reel straight away, this would and will cause problems with the presentation of trays.

Trave 590

1. The machine was running well consider the condition of trays, and the way they place product trays
2. To have a good presentation pack you need 20mm clearance from the edge of tray, and as per picture it's not happening

GENERAL SERVICE REPORT

3. The shuttle was inspected and found it need a service so removed the plates for a deeper inspection.

- Old product between plates
- Contaminated lower plate (dirty) and vacuum ports blocked
- Under the plates was fully contaminated and full of grease.

4. The mobile clamp needs replacing which is completely worn out
5. The top tool hoses need replacing
6. The upper springs need replacing too much movement
