GENERAL SERVICE REPORT

Customer:	Coles ROAA	**Date:**	21st and 22nd July
Site Address:	54 Templar Rd, Erskine Park NSW 2759	**Site Contact:**	Trent Cleminson
		Phone:	0438 287 226
Customer PO #:		**Internal Job #:**	4030

Subject: Sealbars 9x8 tooling

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590	A17A-11614	Line 4
Platformer	A17A-11614	Line 4

Equipment condition:

Work Performed:

Friday 21st

- *This was to install the Teflon coated sealbars.*
- *The engineering company removed too much material off the flat surface which will affect the forming.*

- *The sealbars were installed but we decide to not continue due to concerns of flat surface and will need another looking into.*
- *It would be a good idea to do a complete rebuild of spare top tooling, will send a quote.*

Saturday 22nd

- *Arrive to support the start-up of 9x8 tooling*
- *They had some issue with film not cutting on film set-up*
- *The tooling had to be removed and found an O-ring missing for the cutting.*
- *Once the O-ring was installed the cutting started working.*
- *Running production they had a lot of reworks and this was due to product size too big, the product touches the side wall of the sealbars and breaks the film.*

- *Created a slow compensation cycle to try help with large product which help a little.*
- *Sent through product with prefect size and this sealed well.*
