GENERAL SERVICE REPORT

Customer:	Coles ROAA	**Date:**	23rd November 22
Site Address:	54 Templar Rd, Erskine Park NSW 2759	**Site Contact:**	Trent Cleminson
		Phone:	0438 287 226
Customer PO #:		**Internal Job #:**	3743

Subject: New film trial

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590	A17A-11614	Line 4
Platformer	A17A-11614	Line 4

Equipment condition:

Mondini machine and tools need service

Work Performed:

Wednesday 23rd

Trave 590

Call in to support production with start-up as they have big orders and need the Trave running well.
Start-up was on the small DOT tooling which was running well and no changes were needed during the production run
While they ran the small DOT I started to service the large DOT tool shuttle

- The shuttle lower plates were removed for full inspection
- Cleaned all rails free of contamination
- Removed the fixed clamp for inspection and found the mounting hose worn, this will need replacing
- Aluminium fixed clamp block has some grooves which was caused by bent push-down finger, this would have caused all the problems they had the previous night.

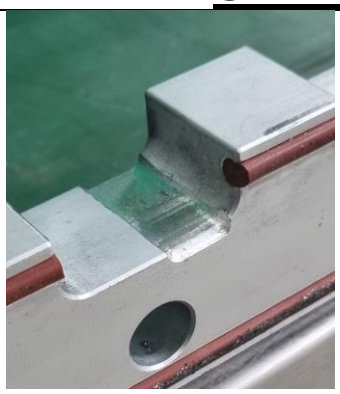
GENERAL SERVICE REPORT



- Replaced Ocord throughout tool.
- Cleaned the lower plates free of contamination
- Removed the mobile clamp for inspection and cleaned
- Inspect all heater plates and film clamps.
- Test the shuttle and all seem okay

Had a quick look at the large DOT top tool and found the inner spacer loose.
Tried to sand the surface area flat to help with film pick-up
