Trave 1000	A/16/A-11301	Traypack L2
Trave 1000	A/17/A-11735	Traypack L3
Trave 590	A23A-13202	TraypackL1

Equipment condition:

Work Performed:

Wednesday 26th

- *Called out due to line 3 in Tray pack was coming up with CPU IO error stopping the line*
- *They were running the line when I arrive with no issue all morning.*
- *Down-power the machine to remove the CPU unit for inspection and reconnect*
- *Checked the 24VDC power supply to CPU, all good*
- *Checked the connection after reinstallation, all good*
- *Remove the SD card and reinstalled, all good*
- *Powered up and machine started okay, no errors.*
- *Started inspecting cables for short circuit and while inspecting the machine went into CPU IO error.*
- *While in error I found no red error indication on any of the IO cards or on the CPU as before the CPU was in error, so I'm pretty confident the CPU is faulty.*
- *Reboot the machine so production could continue running.*

Note: Mark Rooke will arrange a spare CPU from Patrick at Baiada Hanwood.
