Customer PO #:		**Internal Job #:**	
Subject: New film trial			

Equipment Type:	Serial Number:	Customer Line # (if applicable):

Equipment condition:

Machine and tools need service.

Work Performed:

Called out due to problems with Platformer on small VSP trays not forming

- *They were running the correct recipe Plantic Medium DOT, but found the film was not sitting flat after forming and caused the edges to fold up and deform.*
- *The pre-heater temperature was reduced from 150C to 125C which seem to work and changed the release time to try and heat up the film.*
- *This seem to help and we got a better result and could run the trays.*

Not sure why we had to make the changes but found the film was reacting to the temperature.
