# GENERAL SERVICE REPORT

| | | | |
|---|---|---|---|
| **Customer:** | Coles ROAA | **Date:** | 6/10/2022 |
| **Site Address:** | 54 Templar Rd, Erskine Park NSW 2759 | **Site Contact:** | Trent Cleminson |
| | | **Phone:** | 0438 287 226 |
| **Customer PO #:** | | **Internal Job #:** | 1368 |

**Subject:** New film trial

| Equipment Type: | Serial Number: | Customer Line # (if applicable): |
|---|---|---|
| Trave 590 | A17A-11614 | Line 4 |
| Platformer | A17A-11614 | Line 4 |

**Equipment condition:**

Mondini Platformer and tooling need servicing

**Work Performed:**

Platformer running MAP recipe, please note the film I believe has not been tested on the MAP recipe.

- *During the tool changeover, we had to do some repair work on the pick and unloading plate where we found parts missing.*
- *The dampers on the one forming plate were missing and we need to install what we had in stock, which was not the correct part but needed to replace so they could run.*

- *Once the parts where installed we started to set-up a recipe for this film called PLA 2353*
- *We battled to achieve a good run at 50% to 60%  and found as soon as we start increasing the temperature the trays start to hang off the pre-heaters, but found the film is leaving some kind of sticky substance on the pre-heaters as well the vacuum ports are blocked with plastic. Please note this is not normal.*

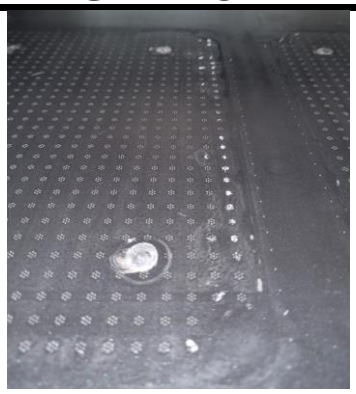
# GENERAL SERVICE REPORT



- *We will need to get Mondini involved as this problem is very difficult to solve and we need Mondini to come up with a solution*
- *The Trave 590 ran okay in MAP with no problems.*
- *The Trave 590 key fob works no long so we have gone back to password as follows*

*Engineering 1 and Engineering 2 with two different levels.*
