Subject: New film trial

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 590	A17A-11614	Line 4
Platformer	A17A-11614	Line 4

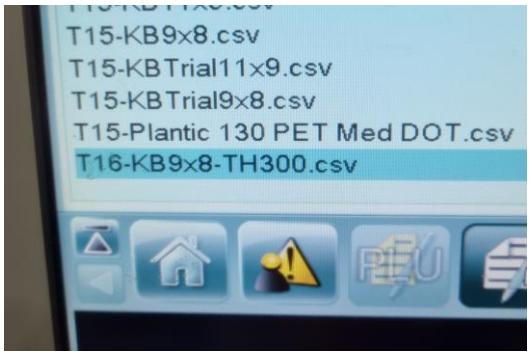
Equipment condition:

Need service

Work Performed:

Trave 590

They been running TH300 film through the Trave, the recipe was cleaned up and saved under a new name (KB9x8-TH300) but what I did notice was the top air pressure set too high, this will need to be reduced as it affect the film on shuttle carriage.
I could not reduce the air pressure, as we need to see full production running to make sure it has set correct.



Platformer

Film trial was tested and run through the Platfomer which ran okay with a few changes done to recipe and saved as PLA2353 Medium as per below
