GENERAL SERVICE REPORT

Customer:	RROA Coles	**Date:**	21.05.2024
Site Address:	Unit 54/72 Templar Rd Erskine Park 2759	**Site Contact:**	Trent Cleminson
		Phone:	trent.cleminson@coles.com.au
Customer PO #:		**Internal Job #:**	4558

Subject: Modification delay stop on product belts.

Equipment Type:	Serial Number:	Customer Line # (if applicable):
TRAVE 590	A17A-11614	

Equipment condition:

In good working condition.

Work Performed: Add parameters to include delay stop times on product belts.

Trave 590 and product belt 1 and 2
20 May 2024

- Arrived on site and set up machine to be ready for testing.
- Test and found that product belt 1 and 2 can only be started and stopped by means of the manual control stop and start buttons next to the belts. The speeds can be set at the HMI.
- Mondini logged on to system and uploaded the new parameters (860 and 861)
- After parameters were added, I did some test runs by setting the product belt stop delay times and see that they do react accordingly.

GENERAL SERVICE REPORT

21 May 2024

- Arrived on sit and explained to customer where the new parameters are and where to set them.
- I set the product belt stop delays to 10 sec as requested on (T15-KB9x8) recipe.
- Customer said they will set the delay times on the other recipes.
- I explained to the production workers that was on the floor at that moment about the changes that was made on the delay stopping time on product belt 1 and 2.
