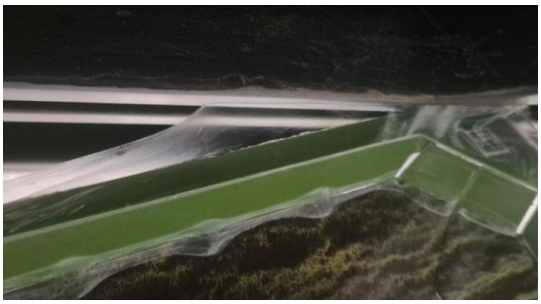
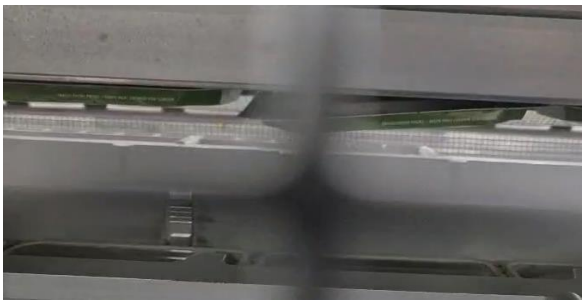
**Equipment condition:**

**Work Performed:**

- Attended onsite to support testing of the old film (VST2111), which Hilton rejected on the Paperseal line (Line 2) over the past six months.
- Installed the film reels on the machine and demonstrated to Sealed Air how the trays were sticking to the top tool and showing poor adhesion on the bottom (inner liner
-





- After observing the issue, we reviewed the machine setup and attempted to adjust the top air compensation to be more aggressive to see if it would help, but this was unsuccessful.
- Testing will continue on Sunday when the new batch of film arrives onsite
