Subject: Breakdown on Line 2

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Trave 340		Line 2

Equipment condition:

Work Performed:

- Called onsite due to some issue with the pusher arms on the middle line.
- The client had already changed the cylinder for the opening and closing of the arms but the movement wasn't really smooth and the arms were bounced very badly.
- After tried to adjust unsuccessfully the cylinder dampers and the air flow restrictors fittings I realized that one of the air fitting couldn't regulate properly so we swapped with a new one fixing the problem immediately.
