GENERAL SERVICE REPORT

Customer:	RROA Coles	**Date:**	30.10.2025
Site Address:	Unit 54/72 Templar Rd, Erskine Park NSW 2759	**Site Contact:**	Trent Cleminson
		E-mail:	trent.cleminson@coles.com.au
Customer PO:		**Internal Job**	5796

Subject: Platformer distance belt - 5796

Equipment Type:	Serial Number:	Customer Line # (if applicable):
Platformer	A17A-11614	

Equipment condition:

Serviceable condition.

Work Performed:

30 October 2025

Platformer A17A-11614

- Arrived on site at 09:30
- Found that the belt was tracking quite a lot to the left.
- Production was supposed to stop at 10:00 but new order came in and had to continue running.
- Within production I did inspections and made adjustments.
- Found that the distance belt tension was way too high and adjusted it to its lowest setting.
- Found that the tensioner was not set correctly on the one side. The bolt that is supposed to set the tension on the roller was not connecting and had no effect.
- I adjusted the tension higher on the one side systematically until the belt was not tracking anymore and stayed in position.
- I monitored the belt for 20 min after my last setting and left site at 12:30
- Please keep an eye on it as it runs over a long time.
